

insights for the life of your business™

MAS 90

■ Low Cost of Entry

Since MAS 90 Small Business is an exclusive entry-level version of standard MAS 90, it costs less, yet provides the capabilities most small businesses need.

■ Easy Ordering with Two Bundle Choices

Choose from a core accounting bundle with or without Microsoft FRx Desktop and complete the suite by adding the distribution bundle based on your immediate needs. In addition, other MAS 90 modules not part of the Small Business bundles, such as Payroll, are available for purchase if you need them.

■ Getting Started Is Simple

Included with MAS 90 Small Business is a tutorial that provides an overview of the navigation and setup for the essential modules. This significantly reduces the time it takes to get up and running.

■ Software Stability

With more than 75,000 customers, MAS 90 is proven software that sets the standard for stability.

■ Easy Transition to MAS 90 or MAS 200 as Your Company Grows

Should the need for additional users, multiple locations, or SQL Server technology arise, the migration to standard MAS 90 or MAS 200 will be easy and cost-effective, with your original software investment protected.

MAS 90 SMALL BUSINESS

MAS 90 is the number one midrange accounting software, and is recommended by more CPAs than any other accounting application. But with more than 25 modules and hundreds of add-on applications, some business owners and managers find that this is more software than their smaller operations require. That's why we've made available this special version of MAS 90 to suit the needs and budgets of smaller businesses. MAS 90 Small Business provides the same ease of use and intuitive workflow that has made the standard MAS 90 solution so popular with Best customers and it provides conveniently bundled modules that make it easy and cost effective for small businesses to get started.

By investing in MAS 90 Small Business, growth-minded companies will not only gain a powerful, stable accounting solution, but they will also enjoy an easy expansion and migration path that makes good business sense. As your company grows, MAS 90 will grow with it. You can easily upgrade your system to standard MAS 90, or you might choose MAS 200, our powerful client/server edition. All versions of the software provide the same look and feel, virtually eliminating the learning curve that is often present when changing software products. Your important MAS 90 Small Business data, including all your historical detail, will also function seamlessly with standard MAS 90 or MAS 200.

MAS 90

MAS 90 Small Business

“With Best’s help, we have taken our company to the next level with MAS 90.”

*Carol Badger, Office Manager

FEATURES:

Low Cost of Entry

Since MAS 90 Small Business is an exclusive entry-level version of standard MAS 90, it costs less, yet provides all the capabilities small businesses need.

Easy Ordering with Two Bundle Choices

The software is sold exclusively in pre-packaged bundles, so you can buy the module bundle you need and add individual modules as required. Choose the core accounting bundle, which includes: Library Master, Accounts Payable, Accounts Receivable, General Ledger (with or without FRx Desktop) and Bank Reconciliation. In addition you may add to, or complete the suite, with the distribution bundle, composed of Inventory Management, Sales Order and Purchase Order. Should you require other modules not part of the MAS 90 Small Business bundles, such as Payroll, these applications are available at regular MAS 90 prices.

Getting Started Is Simple

When you purchase MAS 90 Small Business, we’ll provide you with a software tutorial that will get you up and running quickly. This tutorial overview guides you through your MAS 90 Small Business core modules and helps you get the most out of this powerful accounting solution. Plus, since the software walks you through the necessary setup steps in each module, your learning curve is significantly less than with other accounting packages.

Software Stability

Best has been expanding and adapting MAS 90 since 1988 to accommodate changing business needs and to take advantage of new technologies. With more than 75,000 customers, MAS 90 is proven software that sets the standard for stability. Plus, you can feel even more at ease with Best’s award-winning support team. Our support staff has won the prestigious Software Technical Assistance Recognition (STAR) Award for five consecutive years. This translates into fast, accurate and friendly answers to all your technical issues.

Easy Transition to MAS 90 or MAS 200 as Your Company Grows

MAS 90 Small Business is ideal for small companies that foresee significant growth on the horizon. With standard MAS 90 and MAS 200 waiting in the wings, it makes smart business sense to invest in MAS 90 Small Business. Should the need for additional users, multiple locations or SQL Server technology arise, the move up to the next level of Best accounting solutions will be easy and cost-effective. Not only will your data transfer to these more powerful solutions quickly and easily, but your accounting staff will appreciate the look and feel that is standard across the product line.

MAS 90 Small Business is sold in cost-efficient, single-user or two-user bundles. You can purchase the core accounting modules, which include: Library Master, Accounts Payable, Accounts Receivable, General Ledger (with or without FRx Desktop) and Bank Reconciliation. Or, if you have a large inventory and need to track this important asset, you can complete the suite by adding the distribution bundle which includes Inventory Management, Sales Order and Purchase Order. No matter which solution you choose, MAS 90 Small Business is sure to give you the accounting power and growth capabilities you need to achieve your business goals.
